Technical Data

Fire Alarm Equipment

PRODUCT CODE
FA008/OHS

PRODUCT NAME

Howler Alarm

PRODUCT DESCRIPTION

Howler Alarm - Call Point Operated - Red Strobe

APPLICATIONS

A revolutionary battery operated alarm for emergency situations, extremely versatile, reliable and easy to use. Flashing red strobe to indicate alarm is activated which is useful in low lighting and for people with hearing difficulties. For use in temporary and multi-storey buildings and premises under construction.

FEATURES

- Flashing red strobe light to indicate alarm is activated
- Simply break glass to activate alarm
- HOCF model prevents unauthorised silencing of the alarm
- New design red casing in tough ABS plastic
- Recommended for internal use only
- Equipped with 118db siren
- Supplied with 9v PP9 battery and two re-setting keys
- For location where a conventional fire alarm is inappropriate
- Suitable for people with hearing difficulties
