

# FIRE SAFETY CHECKLIST

A fire risk assessment isn't just a tick box, it's your first line of defence in any emergency situation. Act now!

- Have there been changes to your environment since your last FRA?
- Is there specialist fire safety in place for vehicle charging points?
- Have your extinguishers been serviced in the last 12 months?
- Are fire blankets and extinguishers present where needed?
- Is all electrical equipment PAT tested and up to date?
- Have fire doors been inspected in the last 6 months?
- Have all emergency lighting systems been tested?
- Are your emergency exits clear of obstructions?
- Are measures in place against smoking?
- Are fire safety signs and notices visible?
- Have fire safety systems been tested?
- Is your fire alarm tested every week?
- Are all staff trained and aware?
- Do you carry out fire drills?
